

VELORA 1.0 — Dare to Compete

In association with  **IEEE**

Sponsorship Proposal & Partnership Deck

Organized by: CIPHER – IT Students' Executive Council, Dept. of Information Technology

Venue: MIT Academy of Engineering, Alandi Campus

1. About VELORA 1.0

What is VELORA 1.0?

VELORA 1.0 — Dare to Compete is the first edition of a proposed annual **24-hour national-level hackathon** aimed at promoting innovation, collaborative problem-solving, and hands-on technical learning among students. The event will bring together student developers, designers, and innovators from various colleges across Pune (although not limited to) to build real-world solutions within a high-energy competitive environment.

Our Core Mission

- **Fostering Innovation:** To foster innovation and creative problem-solving.
- **Bridging the Gap:** To bridge the gap between academic learning and industry expectations.
- **Collaboration:** To encourage teamwork and interdisciplinary collaboration.

The Format: The event is planned in multiple rounds with the finale in offline mode at the MITAOE campus, with prior online screening rounds. It features an on-campus development sprint, mentoring support, intermediate reviews, and a final project demonstration.

2. Event Scale & Reach

We are preparing for a massive turnout, and our reach is heavily amplified by strategic partnerships with leading media clubs across our college to ensure maximum visibility for our sponsors.

- **Final Offline Participants:** ~300 top-tier tech students selected after rigorous online screening.

- **Organizing Team:** A dedicated task force of 40+ passionate student leaders and volunteers.
- **Affordable Entry:** Accessible registration fees (₹349 for Internal Teams, ₹449 for External Teams, and ~₹250 for Final Round participants) to ensure maximum participation and high-quality talent.
- **Marketing Reach:** Extensive digital footprint, campus-wide promotions, and social media campaigns driven by our active campus media clubs, and a podcast supported by Nekotachi Podcast Community of MITAOE.

3. Why Partner With Us?

By sponsoring **VELORA 1.0**, your brand will gain direct access to a highly concentrated pool of young engineering talent and future tech leaders.

- **Naming Rights:** "VELORA 1.0 Powered by **[Your Brand]**, In Association with **IEEE**".
 - **Premium Co-Branding:** Prime placement of your logo alongside the globally recognized IEEE logo on all main venue banners (Design Building, E Building, and Auditorium), ID cards, and digital campaigns by our media clubs.
 - **Problem Statement:** Option to provide a custom problem statement for teams to solve.
 - **Talent Access:** First access to the resumes and portfolios of all ~300 final participants.
 - **Speaking Opportunity:** A segment dedicated to your keynote addressing during the Inauguration or Valedictory ceremony.
-

4. Our Funding Requirements

We believe in absolute transparency with our partners. Our fundamental event logistics—including dinner, breakfast, midnight tea, and snacks—are completely self-funded through student registration fees.

Because the basics are covered, your sponsorship will directly elevate the student experience by funding:

- **The Ultimate Prize Pool:** Rewarding the top innovations and creating a highly competitive atmosphere.
- **Apparel & Swag:** Branded T-shirts for the ~300 finalists and 40 team members, providing long-term brand walking visibility.
- **Miscellaneous Upgrades:** Enhancing the event experience with better infrastructure, ID cards, and certificates.

Tailored for Your Brand

We understand that every company has unique marketing objectives. Therefore, all our sponsorship deliverables are highly customizable. Whether you want to host a specific problem statement track, integrate your company's APIs, set up an on-ground product booth, or run specific digital campaigns with our media clubs, we are ready to tailor a partnership package that perfectly aligns with your goals.

Exclusive Bounties & Direct Hiring: If you choose to provide a custom real-world problem statement for the hackathon, you also have the complete freedom to directly reward the teams that solve it best! You can offer special company bounties,

corporate gifts, or even use this as a platform to scout and offer internship opportunities to top-performing participants.

5. Sponsorship Slabs & Deliverables

1. Title Sponsor — Premium Slab (₹40,000 - ₹50,000) *Exclusive branding and maximum event dominance.*

- **Naming Rights:** "VELORA 1.0 Powered by [Your Brand]".
- **Problem Statement:** Option to provide a custom problem statement for teams to solve.
- **Marketing:** Prime logo placement on main venue spaces including the Design Building, E Building, Hackathon Merch, ID cards, digital campaigns by our media clubs (ShutterBugs & BLUR), and Podcast support by Nekotachi Podcast.
- **Talent Access:** First access to the resumes and portfolios of all ~300 final participants.
- *Note: The above price slab is highly negotiable if the company/brand is willing to provide internships to top-performing participants.*

2. Prize Pool Sponsor (₹30,000 - ₹40,000) *Directly associated with the winners and top talent.*

- **Award Presentation:** Your company representatives will hand over the winning prizes on stage.
- **Certificate Branding:** Your logo featured prominently on all winner and participation certificates.
- **Social Media Shoutouts:** Dedicated post campaigns highlighting your brand as the official prize partner, pushed by our official media clubs.

3. Apparel & Swag Sponsor (₹20,000 - ₹25,000) *Long-lasting, walking billboards for your brand.*

- **T-Shirt Branding:** Prominent logo placement (e.g., sleeves or back) on the official VELORA 1.0 T-shirts worn by 300+ finalists and 40 team members.
- **Goodie Bag Inclusion:** Opportunity to include your company's merch, stickers, or pamphlets in the participant welcome kits.
- **Marketing:** Logo inclusion on secondary event banners and social media sponsor grids.

4. Technology / Platform Sponsor (In-Kind) *Perfect for software, cloud, startups, or API providers.*

- **Tools:** Provide free credits, premium access, or software tools to the participating teams.
- **Talent Access:** First access to the resumes and portfolios of all ~300 final participants.
- **Special Category:** Dedicated prize category for the "Best Use of [Your Tool]".
- **Visibility:** Digital branding and acknowledgment during the opening ceremony.

Final deliverables and mutual expectations, such as internship offerings, will be customized over a brief discussion to perfectly align with your goals.

6. Requirements & Expectations from Our Partners

To ensure a seamless collaboration and guarantee your brand gets maximum visibility, we require the following from our finalized sponsors:

- **Brand Assets:** High-resolution company logos (PNG/SVG/Vector formats), brand guidelines, and official social media handles for accurate tagging and placement.
- **Timely Commitment:** Prompt processing of the agreed sponsorship funds or provision of in-kind software access/API keys so we can finalize printing and logistics without delays.
- **Custom Content (If Applicable):** If your tier includes a custom track, we request the detailed problem statement, necessary API documentation, or specific judging criteria well in advance of the event.
- **Physical Swag (If Applicable):** Delivery of any physical merchandise, stickers, or pamphlets intended for the participant goodie bags at least one week prior to the event.
- **Event Engagement:** While optional, we highly encourage sending company representatives to mentor, judge, or present awards to maximize your direct engagement with the students.

Let's Negotiate

We consider our sponsors to be true partners in this initiative. **All of the above tiers, deliverables, and financial expectations are fully flexible.** If your brand is interested in providing direct value to our students—such as offering guaranteed internships, pre-placement interviews, or exclusive corporate bounties—we are more than happy to negotiate the pricing slabs and tailor a custom package that perfectly aligns with your recruitment and marketing goals.

6. Contact & Next Steps

Let's collaborate to empower the next generation of tech innovators! We are highly flexible and open to customizing these deliverables to perfectly match your brand's marketing objectives.
